Extended Medical Insurers
British Columbia

Dear Extended Medical Insurers

Re cost of Dexcom G6

Click on [this link](#) (see <https://bit.ly/3iAt2mH>) for Dexcom G6 pricing straight from the manufacturer - scroll to the bottom of the page for detail.

With a subscription the Dexcom G6 costs \$299 per month. Every 3 months 12 sensors + 1 transmitter are shipped. This is the price that clients with a credit card would almost certainly face.

Without a subscription (for those without a credit card) the cost would be that of

A transmitter = \$289 which lasts 3+ months = \$96.34 per month

A sensor (which last 10 days) hence 3.1/month = \$310 per month

For a total of \$406/month

Yours sincerely,

Tom Elliott
Medical Director
