BCDiabetes fundraising event 2019-Apr-4 7-9 pm at Science World

Dear BCDiabetes supporter

Please join us April 4 for the BCDiabetes fundraising gala for a casual, intimate evening of unique discussion, insight and discovery. It will be held at Science World April 4 2019 7-9 pm.

Learn about Dr. Elliott and BCDiabetes' unique approach to compassionate care & clinical research providing solutions to the diabetes epidemic. All funds raised will support our Diabetes research and Fund-a-need programs. *This year the fund-a-need program will provide flash glucometers & continuous glucose meters to BCDiabetes clients who need but are unable to afford this miraculous life-changing technology.*

The evening will feature live entertainment, light snacks & libations, a live auction and wine wall.

Tickets can be purchased online or at BCDiabetes. All donations will be eligible for a CRA tax receipt.

Whether or not you can make the event, join the fun and help us build the wine wall. Our first annual B.C. Diabetes event will feature a spectacular 150+ bottle wine wall. Guests at the event may purchase tickets - for each ticket a random number will be drawn - each number will be matched with a mystery bottle of wine! We therefore need your wine!!! Please help us by dropping off any bottle at our office. It can be big or small, expensive or inexpensive, vintage or home-brewed. Please don't wrap the bottle as on the evening it won't be wrapped (but please identify yourself as donor so we can thank you individually).

Yours sincerely,

Tom Elliott
