

BCDiabetes-recommended Pharmacare Priorities

Below are listed, in descending order of priority, the drugs and devices that BCDiabetes wishes BCPharmacare to consider for British Columbians living with diabetes. Thank you Minister Dix for covering [SGLT2 inhibitor](#) 2019-May-27, [Medtronic's 670G closed-loop pump](#) 2020-Jun-27 and [the GLP-1 agonist semaglutide](#) 2020-Dec-16. [See this pricing table](#) for costs.

Delisting of glyburide/gliclazide - these drugs cause low sugar (hypoglycemia) & are dangerous

[rapid insulin](#) full coverage

[CGM/flash glucometers](#)

[Tandem T-slim with Control IQ closed loop pump](#)
