Tattoos & permanent body art in people living with diabetes

Dear Tattoo/body artist

From time to time BCDiabetes is asked to authorize tattoos and body art for its clients.

Providing the work is being done by certified technicians using sterile technique, and that the client living with diabetes observes standard due diligence, BCDiabetes hereby authorizes its client, the bearer of this report, to undergo the planned tattoo & permanent/semi-permanent body art.

Please email any further questions or concerns to questions@bcdiabetes.

Yours sincerely,

Medical Director
